PART 6. THE LOWER MAIN-STEM	84
COUNTY SUMMARY	93
SUMMARY OF NUMBER OF MANUFACTURING ESTABLISHMENTS IN THE COLORADO RIVER BASIN BY MAJOR SUB-BASINS	94

INTRODUCTION

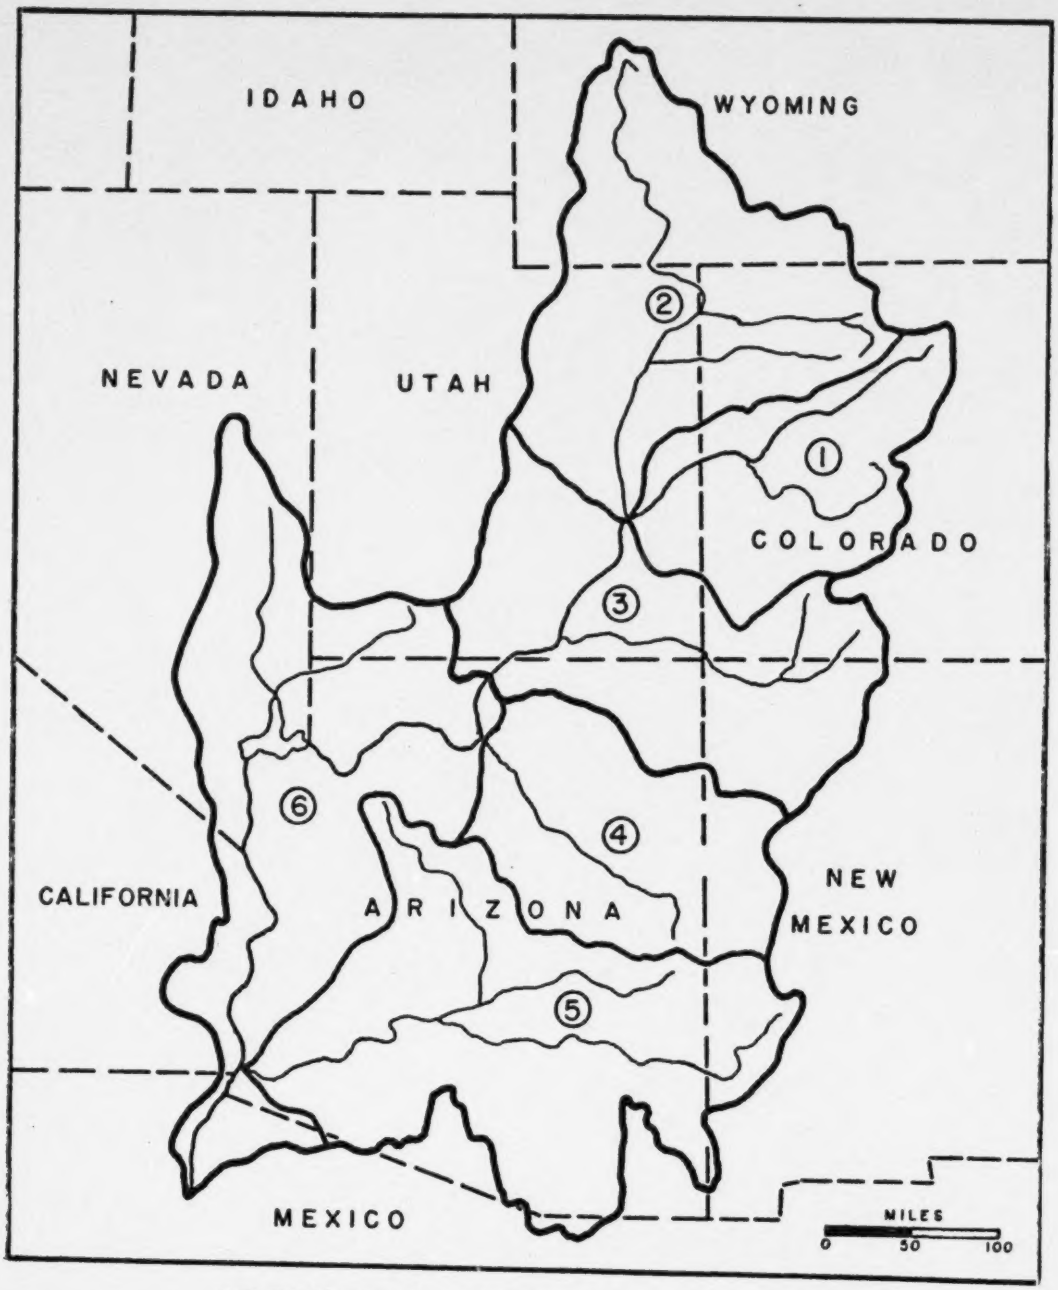
This Directory of Manufacturers for the Colorado River Basin provides basic data for use in the Colorado River Basin Water Quality Control Project. It will assist in the development of the economic base study for the basin and it will also provide detailed data on the type and location of various industries which can be used by the personnel making the stream investigations.

The directory includes part or all of the States of Arizona, California, Colorado, New Mexico, Nevada, Utah, and Wyoming. Manufacturers are listed for representative counties only and summarized by sub-basins, as shown on the map on the following page.[1/]

Individual firms are listed in accordance with the Standard Industrial Classification Manual showing Company name, address, and range in number of employees. It is noted, however, that firms falling in SIC groups 32, 35, 36, 37, 38, and 39 have been grouped and are listed under "All Others."

The information contained in this report was compiled from the 1960 Directory of Manufacturers prepared by the individual states under consideration. There may, of course, be some errors and omissions. The listings, however, are considered sufficiently complete to serve as a starting point in the analysis of present types of manufacturing industries by location within the Colorado River Basin.

1/ For list of representative counties by major division and sub-basin refer to State and County Area Tabulations for the Colorado River Basin, Colorado River Basin Water Quality Control Project, Public Health Service, Region VIII, Denver, Colorado, January 1962, table 5, page 13.



COLORADO RIVER BASIN WITH MAJOR SUB-BASINS

SUB-BASINS

Upper Basin Division

1. UPPER MAIN-STEM
2. GREEN RIVER
3. SAN JUAN RIVER

Lower Basin Division

4. LITTLE COLORADO RIVER
5. GILA RIVER
6. LOWER MAIN STEM
